

Live Training Session

Do you and your team need to better understand product compliance in practice? Our team has extensive experience with both compliance requirements, and how compliance is implemented in practice.

We can also onboard your team with using the Compliance Gate Platform.

Training session agenda example

- EU REACH compliance
- EU labeling requirements
- How to create label files
- How to ensure that the correct label is printed
- How lab testing works
- Q&A session
- Compliance Gate Platform onboarding

Do you adapt the training sessions for your customers?

Yes, we will discuss what you want to learn during the training session, depending on your needs and industry.

That being said, we can only provide training within the scope of the regulations covered on the Compliance Gate Platform. Further, we cannot guarantee that we can answer each and every question.

How long is a session?

Normally around 45 minutes.

How is the training session conducted?

Usually via Google Meet, or your video conference platform of choice. The latter requires that you send us a link.

How many people can attend a session?

We have no strict limit.
