

Compliance Gate Platform - US Database

Compliance Requirements List (CRL)

1. We only cover the regulations/requirements listed in this document.
2. We specify which regulations/requirements are monitored and provide the URL. Not all entries in the database have sources that are actively monitored.
3. You can see the current status of each entry and the source version they are based on.

Document Templates

1. We only cover document templates listed in this document.
2. You can see the current status of each document template and the source version they are based on.

Monthly report

1. We send a monthly report containing selected news items from the sources listed in this document.
2. You need to [sign in](#) to your account to access each report.

Compliance Requirements Lists

Database

- 1. CRL refers to the Compliance Requirements List.
 - 2. CGP refers to the Compliance Gate Platform. New CGP refers to the new version of the Compliance Gate Platform which was launched in August 2024.
 - 3. For CRL entries approved before 2025-10-16, we have used the date of “up to date” of the **title**, which we have called “eCFR version from MM/DD/YYYY”, to indicate the version of the legislation that was used to create the entry.
- For CRL entries approved on and after 2025-10-16, we have used the most recent **eCFR timeline date**, which we have called “eCFR timeline version from MM/DD/YYYY”, to indicate the version of the legislation that was used to create the entry.

Arts and crafts

CRL Entry	CRL source	Log
19 CFR PART 134 - COUNTRY OF ORIGIN MARKING - Native American-style arts and crafts Limit: This summary only covers requirements under Source 1 > 19 CFR Part 134.43(d) (excluding requirements affecting goods from NAFTA or USMCA countries).	Main source: Link CRL source version: eCFR version from 2/16/2024 Latest source version: eCFR timeline version from 5/19/2022	2024-08-19: Added to the new CGP

Art Materials

CRL Entry	CRL source	Log
16 CFR Part 1500.14(b)(8) - Art materials (LHAMA) Limit: This entry only covers requirements relevant to art materials (Source 1 > 16 CFR Part 1500.14(b)(8)).	Main source: Link CRL source version: eCFR version from 9/24/2024 Latest source version: eCFR timeline version from 8/01/2019	2024-10-31: New CRL entry approved

Batteries

CRL Entry	CRL source	Log
16 CFR PART 1263 - SAFETY STANDARD FOR BUTTON CELL OR COIN BATTERIES AND CONSUMER PRODUCTS CONTAINING SUCH BATTERIES Application date: 2023-10-23	Main source: Link CRL source version: eCFR version from 2/01/2024 Latest source version: eCFR timeline version from 9/23/2024	2024-08-19: Added to the new CGP 2024-12-16: Updated Labeling and Sources sections
49 CFR Subtitle B Chapter I Subchapter C - Hazardous Materials Regulations Limit: This entry only covers requirements listed in the Hazardous Materials Table (Source 1 > 49 CFR Part 172.101) that are relevant to batteries.	Main source: Link CRL source version: eCFR version from 8/26/2024 Latest source version: eCFR timeline version from 7/01/2025	2024-11-06: New CRL entry approved
CPSC Battery Recommendations	Source not monitored	2024-08-19: Added to the new CGP
Mercury-Containing and Rechargeable Battery Management Act	Main source: Link CRL source version: Information available on 5/13/1996 Latest source version: Information available on 5/13/1996	2024-08-19: Added to the new CGP
REESE'S LAW	Main source: Link CRL source version: Information available on 8/16/2022 Latest source version: Information available on 8/16/2022	2024-08-19: Added to the new CGP
UN Manual of Tests and Criteria - Section 38.3 Note: Summary not provided due to copyright (may not be used, reproduced or transmitted).	Source not monitored	2024-08-19: Added to the new CGP 2024-12-10: Updated specification question, intro, and sources sections

Candles

CRL Entry	CRL source	Log
16 CFR Part 1500.17 - Banned Hazardous Substances (FHSA)	Main source: Link CRL source version: eCFR version from 9/17/2024 Latest source version: eCFR timeline version from 1/03/2017	2024-10-31: New CRL entry approved 2025-06-11: Removed General Certificate of Conformity (GCC) section

Children's Products (Including toys)

CRL Entry	CRL source	Log
16 CFR Part 1130 - Requirements for Consumer Registration of Durable Infant or Toddler Products	Main source: Link CRL source version: CFR timeline version from 5/05/2025 Latest source version: eCFR timeline version from 5/05/2025	2025-10-22: New CRL entry approved
16 CFR PART 1501 - METHOD FOR IDENTIFYING TOYS AND OTHER ARTICLES INTENDED FOR USE BY CHILDREN UNDER 3 YEARS OF AGE WHICH PRESENT CHOKING, ASPIRATION, OR INGESTION HAZARDS BECAUSE OF SMALL PARTS	Main source: Link CRL source version: eCFR timeline version from 1/03/2017 Latest source version: eCFR timeline version from 1/03/2017	2025-10-20: New CRL entry approved
Choking Hazard Warning Label Limit: This entry is based on a CPSC guidance page titled Small Parts Ban and Choking Hazard Labeling (Source 2) which references 16 CFR Part 1500.19 and 1500.20.	Source not monitored	2025-10-22: New CRL entry approved
Consumer Product Safety Improvement Act (CPSIA) Limit: This summary is based on the CPSC rules contained in the eCFR and CPSC guidance pages. This summary only covers rules that concern children's products.	Main source: Link CRL source version: eCFR version from 12/14/2023 Latest source version: eCFR timeline version from 7/05/2025	2024-08-19: Added to the new CGP 2024-08-20: Updated Lab Testing section / Added sources 13 and 14
Rules Requiring Third-Party Testing and a CPC	Source not monitored	2024-11-12: New CRL entry approved

Electronics

CRL Entry	CRL source	Log
10 CFR PART 429 - CERTIFICATION, COMPLIANCE, AND ENFORCEMENT FOR CONSUMER PRODUCTS AND COMMERCIAL AND INDUSTRIAL EQUIPMENT	Main source: Link CRL source version: eCFR timeline version from 9/09/2025 Latest source version: eCFR timeline version from 9/09/2025	2025-10-20: New CRL entry approved

CRL entry source versions

Category	Example
CRL source version: Each entry is based on the legislation version available at the time of writing. This is only updated if the entry is rewritten entirely.	1. This summary is based on the timeline version from 05/12/2022 (more recent versions may be available).
Created/Updated: This indicates the date the entry was either created (if never updated since) or last updated. 1. Entries can be updated for the following reasons: • Amendment • General edit based on source text 2. We do not update the date when changing the layout (i.e., adding a button or changing font size).	2. Created/Updated: 2025-09-26 (sources may have been updated since this date).
Amendment reviews: We list all amendment reviews when a new timeline version is published and specify whether or not these resulted in a CRL entry update.	3. Timeline version from 05/12/2022: Review on 09/12/2022 resulting in update (Appendix 5: Instructions listed in CRL entry)

Document templates

Children's Product Certificate

Template source	Update log
Main source: CPSC - Children's Product Certificate This template is based on information available on 2025-11-05 (more recent versions may be available).	2025-11-05: Template approved
Template data	
Children's Product Certificate [...] Elements Required in a CPC 1. Identification of the product covered by this certificate Describe the product(s) covered by this certification in enough detail to match the certificate to each product it covers and no others. 2. Citation to each CPSC children's product safety rule to which this product is being certified The certificate must identify each applicable children's product safety rule (see link above). If an exemption/determination applies that makes testing to a particular safety rule unnecessary, the citation for the children's product safety rule must still be listed in this section; the citation for the exemption/determination may be included under element 6. 3. Identification of the domestic manufacturer or importer certifying compliance of the product Provide the name, full mailing address, and telephone number of the firm. 4. Contact information for the individual maintaining records of test results Provide the name, full mailing address, e-mail address, and telephone number of the person maintaining test records in support of the certification. The person does not need to be from the firm identified in element 3, but it is the responsibility of the firm identified in element 3 to facilitate the provision of test reports when requested. 5. Date and place of manufacture For the date(s) of manufacture, provide at least the month and year (or starting month and year for a continuous batch). For the place of manufacture, provide at least the city (or administrative region), state (if applicable), and country where the product was manufactured (finished product assembly). If the same manufacturer operates more than one location in the same city, provide the street address of the factory. 6. Date(s) and place(s) of testing Provide the date(s) of the test(s) or test report(s) and location(s) of testing. Citations for exemptions/determinations may be included here. 7. Identification of any third-party, CPSC-accepted laboratory who conducted the testing Provide at least the name, full mailing address, and telephone number. Registered small batch manufacturers who are not required to third-party test their product to certain children's product safety requirements must include the registration number provided by the CPSC in this section of the CPC.	

General Certificate of Conformity

Template source	Update log
Main source: CPSC - General Certificate of Conformity This template is based on information available on 2025-11-05 (more recent versions may be available).	2025-11-05: Template approved
Template data	
General Certificate of Conformity [...] Elements Required in a GCC 1. Identification of the product covered by this certificate Describe the product(s) covered by this certification in enough detail to match the certificate to each product it covers and no others. 2. Citation to each CPSC product safety rule to which this product is being certified The certificate must identify each applicable safety rule (see link above). If an exemption applies that makes testing to a particular safety rule unnecessary, note the citation for the exemption under the safety rule (see GCC examples for recommendations on how to cite exemptions). 3. Identification of the domestic manufacturer or importer certifying compliance of the product Provide the name, full mailing address, and telephone number of the firm. 4. Contact information for the individual maintaining records of test results Provide the name, full mailing address, e-mail address, and telephone number of the person maintaining test records in support of the certification. The person does not need to be from the firm identified in element 3, but it is the responsibility of the firm identified in element 3 to facilitate the provision of test reports when requested. 5. Date and place of manufacture For the date(s) of manufacture, provide at least the month and year (or starting month and year for a continuous batch). For the place of manufacture, provide at least the city (or administrative region), state (if applicable), and country where the product was manufactured (final assembly). If the same manufacturer operates more than one location in the same city, provide the street address of the factory. 6. Date(s) and place(s) of testing Provide the date(s) of the test(s) or test report(s) and location(s) of testing. 7. Identification of any third-party laboratory who conducted the testing Provide at least the name, full mailing address, and telephone number. This section may state "N/A" for a GCC because third-party laboratory testing is not a requirement for general-use products; however, if the responsible firm uses test results from a third-party laboratory as the basis for issuing its GCC, the law requires that the certifier must then provide information pursuant to this section.	

Note: The template data is a copy of the last checked source version. The text highlighted in red indicates which parts are included in the template.

Source Monitoring

Compliance Requirements Lists - Updated Regulations (Monthly)

1. We check if there is a new timeline version for the listed US regulations/requirements each month.
2. When a new timeline version is found, we review the associated amendment and assess which of the following applies:

Category	Criteria	Outcome
A: Minor amendment	1. Clearly defined changes 2. Limited to certain articles/parts	We may update the CRL entry if the amendment adds new requirements or adjusts requirements that are not referenced or indexed
B: Major amendment	Affecting many different parts of the regulation	Same as above or we rewrite the entire CRL entry based on the latest version
C: Amendment deemed not relevant to covered CRL information		No update

Notes

1. We only monitor timeline versions as they are published on the eCFR for the listed regulations. We only check sources monthly, which means that there is a delay from the publication of a new timeline version until the point that we include it in the monthly report and also make updates to affected CRL entries.
2. We do not track amendments, proposals, or other news announced in the eCFR or the Federal Register related to covered regulations

Compliance Requirements Lists - New Regulations (Monthly)

1. We monitor new regulations announced in the regulations.gov search results ([Link](#)), filtering for:
 - “Rule” and “Proposed Rule” and
 - The following US government agencies: EPA, FCC, FDA, DOT, FTC, CPSC, DOE, OSHA, USDA
2. We select regulations that we find and deem relevant to the product categories we cover.
3. This can, in turn, result in new CRL entries and new document templates.

Annual Audit (October)

Next audit: October 2026

Compliance Requirements Lists

1. Is the CRL entry based on the latest source version **or** reviewed according to the latest source version?
2. If yes, no update is necessary
3. If no, we assess if it is necessary to update or rewrite the CRL entry

Document templates

1. Is the document template based on the latest source version?
2. Does the template headline and subheading match what is written in the latest source version?
3. If yes on point 1 **and** 2, no update is necessary
4. If no on either point 1 and 2, update the template

Monthly Testing

Compliance Requirements List

The purpose of this test is to verify if all selected entries (country, product categories, and specifications) appear correctly in the compliance requirements lists:

1: We create a compliance requirements list with **5 modules** (selected from the first row) for each country/market (US, EU, and UK)*

*The following 5 consecutive modules are selected in the following month.

2: We select “**Yes**” for all specifications

3: We check that all entries appear on the product page

4: We check that all entries appear on the PDF report

Templates

The purpose of this test is to verify if document templates function correctly, and if the template fields and downloaded PDF files contain the correct text.

1: We create **1 new document** (selected starting from the top left) and download it in PDF format for each country/market (US, EU, and UK)*

*The following template is selected in the following month.

2: We fill in additional headlines, one subheadline for each headline, and add all images (where possible), and download the document in PDF format

3: We check that all the information is present in the PDF file, and that it matches the information in the template page

4: We check that the headlines in the template page match the headlines in this document (see above Document templates database)

5: We check that the sidebar is showing the information concerning the relevant template

6: We reset the document to confirm that the reset functionality is working correctly

7: We delete the document to confirm that the delete functionality is working correctly

8: We open and download a pre-filled document for each of the available templates to:

- Check that the sidebar is showing the information concerning the relevant template
- Download a PDF and check that its text/images match the text/images entered in the template

Source link monitoring

1: All source links that can be found inside compliance requirements list entries/items and templates are available on a specific table of the Compliance Gate Platform database.

2: A copy of the table is uploaded to a separate website.

3: The links are scanned by a plugin titled Broken Link Checker. This plugin provides a list of:

- 404: Broken URLs (page removed)
- 301/302/307: Redirected URLs

4: We take the following action in case any of the above is detected:

- 404: We replace the source link
- 301/302/307: We assess if the new page is relevant*

*If yes, then we update to the current (redirected) source link. If not, then we replace the source link.

5: There are some scenarios in which a missing, incorrect, or irrelevant source link could be present in the compliance requirements list entries or templates:

- Plugin fails to detect 404/301/302/307
- Content changed on page (but no 404/301/302/307)

There is also a risk of human error, resulting in missing, incorrect, or irrelevant source links not being replaced.
